

Ariful Islam

IT & Cloud Professional | Help Desk & AWS Expertise

Experienced in IT support, system troubleshooting, and software testing. Skilled in leveraging AWS Cloud Services and enterprise operations to enhance efficiency, optimize performance, and deliver tangible business value.

PROFESSIONAL EXPERIENCE

H&R Block | Ellisville, MO — Tax Consultant/Client Support

2024 - Present

- Provide client-facing technical and financial support, assisting 50+ clients per tax season with accurate filing and regulatory compliance.
- Manage client data securely using digital tax platforms and internal systems.
- Advise clients on strategies to improve financial planning and tax efficiency.

British Petroleum | Wildwood, MO — GM / Customer Care

2018 - 2023

- Managed daily store operations, staff supervision, inventory control, and POS systems to ensure efficient transactions and strong customer service.
- Increased store revenue 15% through targeted promotions, merchandising strategies, and improved operational efficiency.
- Maintained compliance with safety, environmental, and fuel handling regulations.

Talent Tech | Philadelphia, PA — Software Tester / Technical Troubleshooting

2014 - 2017

- Performed manual and automated testing of web applications, APIs, and system functionality to ensure software reliability.
- Created and maintained test cases, test plans, and defect reports with Agile development environments.
- Developed automated test scripts using Selenium WebDriver, reducing regression testing time by 30%.
- Collaborated with developers and product teams to optimize sprints.

IBM Corporation | Atlanta, GA — Partner Services Analyst / Help Desk Support

2009 - 2013

- Provided Tier 1 / Tier 2 technical support for enterprise clients, troubleshooting software, server, and application issues.
- Resolved 90% of support tickets on first contact, enhancing customer satisfaction and minimizing escalations.
- Logged incidents and tracked resolution using enterprise ticketing systems.
- Escalated complex issues to engineering teams, reducing resolution delays.

Hewlett-Packard Inc. | Atlanta, GA — IT Support / Help Desk Technician

2005 - 2008

- Delivered remote IT support for Windows and Linux environments, resolving hardware, software, and network issues.
- Troubleshoot system performance, connectivity, and application problems using remote support tools.
- Assisted users with system installations, configuration, and software updates.
- Maintained high SLA compliance while efficiently managing support tickets.
